Subject index

Blood groups and biochemical polymorphism in cattle

Haemolytic factor in bovine seminal vesicle fluid. I. Individual differences in the sensitivity of cattle erythrocytes: J. Matoušek 89
Immunoelectrophoretic study of esterase in blood serum, spermatozoa and genital tract fluids of bulls: L. Veselský and A. Kúbek 95
Studies on bovine serum amylase: evidence for 2 loci: N. K. Mazumder and R. L. Spooner 145
Haemolytic factor in bovine seminal vesicle fluid. II. First attempt at fractionation and enzymatic splitting: J. Matoušek and R. Staněk 157
Studies on the nature of the heterogeneity of cattle transferrin: A. Stratil and R. L. Spooner 173
Foetal and neonatal transferrins in cattle: R. L. Spooner, R. B. Land, R. A. Oliver and A. Stratil 241

Blood groups and biochemical polymorphism in pig

Evidence for the *Tf* locus being associated with an early lethal factor in a strain of pigs: P. Imlah 5
The genetic control of arylesterase activity in pig serum: B. Gahne 33
A comparison of occurrence of A, Na and Nb substances in the blood, milk and saliva of sows: J. Hojný and V. Glasnák 47
Db — next blood group factor of the D system in pigs: J. Hradecký and J. Linhart 65
A note on lack of polymorphism in serum transferrin in pigs of Danish Landrace breed: K. Christensen 123
Blood factor Fb in pigs: J. Hradecký and J. Hojný 125
Polymorphism of postalbumins in the serum of pigs and the ovarian follicular fluid of sows: A. Kúbek and J. Matoušek 163
Close linkage between the locus for phosphohexose isomerase (PHI) and the H blood locus in pigs: E. Andresen 171
Immunological and chemical studies on porcine submaxillary mucins: N. Payza, L. Martinez and W. Pigman 195

Blood groups and biochemical polymorphism in horse

Genetic control of cholinesterase activity in horse serum: B. Gahne, S. Bengtsson and K. Sandberg 207
A single acid gel for the separation of albumins and transferrins in horses: A. M. Scott 253

Blood groups and biochemical polymorphism in sheep and goat

Serum amylase types in Angora goats: H. Fechter and Gerda Pretorius 63
The M-L blood group system and its influence on red cell potassium levels in sheep: E. M. Tucker and J. C. Ellory 101
The genetic control of arylesterase activity in the serum of Gotland Sheep: B. Gahne and M. Göransson 127
An estimation of dominance at the locus controlling blood potassium in sheep: G. E. Eagleton, J. G. Hall and W. S. Russell 135

Blood groups and biochemical polymorphism in chicken

Prealbumin locus in chickens: A. Stratil 15
A study on the genetic linkage in chickens comprising six loci for polymorphic proteins and three other gene pairs: A. Stratil 83
Genetic polymorphism of proteins in different breeds and different populations of chickens: A. Stratil 117
Genetic control of liver esterase forms in chickens: I. Okada and S. Sasaki 181

Blood groups and biochemical polymorphism in experimental animals

Serum alkaline phosphatase inheritance in the pigeon: R. V. Brown and J. H. Manley 43
Association of transferrin and glutathione in pigeons: R. V. Brown and H. B. Sharp Jr 113
Hemoglobins, haptoglobins and transferrins in *Marmosa mitis*: M. Shifrine and C. Stormont 169
Glutathione and transferrin in rhesus monkeys: R. V. Brown, M. Goodman and J. A. Gavan 189

Blood groups and biochemical polymorphism in fish

Esterase polymorphism in vitreous fluid of Pacific hake, *Merluccius productus*: F. M. Utter, C. Stormont and H. O. Hodgins 69
Polymorphism of transferrin in *Ictalurus melas*: J. M. Fine, A. Drilhon, M. Marneux, F. Mazeaud and P. Amouch 235

General

The freezing and preservation of bovine erythrocytes in liquid nitrogen: G. L. Zink and H. C. Hines 23
Theoretical exclusion percentages obtainable by blood grouping of pigs: P. Bräuner Nielsen 53
Polymorphic and antigenic substances in the fertility of farm animals (Review): J. Matoušek 213
An improved method for horizontal starch-gel electrophoresis: H. Geldermann 229
Relationship between blood or milk polymorphisms and size measures of Holstein heifers: E. W. Brum, H. C. Hines, T. M. Ludwick and E. R. Rader 247
